Ms. Campoli,

This email is to provide a status update on the subject site for the Door County Highway Department as requested as part of your correspondence of September 17, 2020.

1. Door County is the process of working with the property owners of 10397 to replace the well at this site. Door County will be paying for the new well to be constructed to current guidelines. This is a seasonal home and is occupied intermittently, creating some delay in working out details and timing the well replacement. Our goal is to have the new well drilled as soon as details are worked out with the property owners, and a well driller is available.
2. I have attached the well information for the KitschlInn located a 10440 Orchard Road in Sister Bay. This well was constructed in 1971, was drilled to a depth of 210 feet, and has a 6" casing to 106 feet. We have not contacted the owner to proceed with a well chloride sample yet, but plan on having this done in the next few weeks.
3. After the two items have been accomplished above, pending acceptable levels of chlorides at 10440 Orchard Road, the county will procure a Hydrogeologist to complete a closure packet.

Any questions, please let me know.

John Kolodziej
Door County Highway Commissioner

DEC 30 1971
